About Me

I have an entrepreneurial background with a diverse set of skills gained from my experience in managing projects, establishing efficient business processes, and negotiating with clients. In the future, I am eager to enhance my skills in frontend development and I am currently seeking to join a reputable team that emphasizes engineering culture. I am enthusiastic about collaborating with like-minded individuals and making a meaningful contribution to a company's success while continuously learning and growing as a professional.

Projects

Business card websites:

- artfight.net - HTML, CSS
- kazak.zp.ua - HTML, CSS, PHP
